PROFESSIONAL SUMMARY

Highly motivated SMK TKJ graduate and MikroTik Certified IT Support Professional (MTCNA) with hands-on experience in hardware maintenance, technical support, and IT asset documentation. Adept at conducting inventory data recaps, ensuring the functionality of IT equipment, and maintaining accurate technical records to support IT operations. Proactive, eager to learn, and equipped with a versatile technical skill set spanning networking, infrastructure, and web technologies, ready to contribute to collaborative team goals within a dynamic IT System Integrator environment.

CORE COMPETENCIES & SKILLS

- **Hardware & IT Operations:** Hardware Maintenance, Asset Inventory & Recap, PC/Laptop Setup, Peripheral Management (Printers, UPS, CCTV, IP Phones), System Diagnostics.
- **Documentation & Reporting:** IT Documentation, Accurate Record-Keeping, Ticketing Systems (StayPlease), SLA Management, Incident Reporting.
- **Networking (LAN/WiFi):** MikroTik RouterOS (DHCP, PPPoE), TCP/IP, DNS, Firewall Rules, Network Diagnostics (Aruba, LinkSprinter).
- **Systems & Web Development:** Windows OS (10/11), Linux Server Administration (Debian 13), Apache Web Server, VMware, HTML, CSS, Tailwind CSS.

PROFESSIONAL EXPERIENCE

IT Intern | Pan Pacific Hotel Group | Jakarta, Indonesia | *July 2025 – January 2026*

- Conducted inventory data recap and managed documentation for IT assets, meticulously tracking workstations, IP phones, UPS units, and network peripherals to maintain accurate records.
- Maintained and verified the functionality of 15+ enterprise workstations (laptops/PCs), minimizing end-user downtime through proactive hardware checks.
- Provided Tier 1 technical support, efficiently resolving IT Help Desk tickets via StayPlease within strict SLA standards.
- Managed physical IT infrastructure and peripheral devices, including enterprise printers, UPS units (Schneider APC), and Honeywell CCTV systems (physical installation and NVR troubleshooting).
- Diagnosed and resolved hardware, software, and network issues, utilizing tools like Aruba Wireless Controllers and LinkSprinter to ensure LAN/WiFi stability.

TECHNICAL PROJECTS

Network Monitoring & Security Implementation | Tangerang, Banten Independent IT Project | 2026

- Implemented Netdata for real-time network and system monitoring, enabling proactive diagnostics and rapid troubleshooting of server anomalies.
- Configured Linux servers (Debian 13) and managed virtual environments (VMware 17.6) for system isolation and application testing.
- Executed network handling tasks by configuring firewall rules, routing, and DNS forwarders on MikroTik hardware.
- Deployed an Apache Web Server and configured SSL certificates using OpenSSL to establish secure access.

EDUCATION

Teknik Komputer Dan Jaringan SMKN 3 Tangerang | Tangerang | 2023 - 2026

- **Relevant Coursework: Routing & Switching Fundamentals, Linux Administration, Network Hardware & Software Maintenance.**

CERTIFICATIONS

- **MTCNA – MikroTik Certified Network Associate** | MikroTik | Valid 2026 – 2029
- **TOEIC – Test of English for International Communication** | **Score: 935 (Gold Certificate)** | ETS | Valid 2025 – 2027

LANGUAGES & MOBILITY

- **Availability:** Willing to work 24/7 shifting schedules, onsite, and highly mobile for project requirements.
- **Languages:** Indonesian (Native), English (Full Professional Proficiency)
